

How to swap ERC-20 to SPL tokens?

To swap your ERC-20 tokens, you have to register on LB world platform that offers EFK token swapping.

How to register on LB world platform:

1. Go to <https://account.lbworld.eu> and Create a new account!

2. Fill in all the data

A screenshot of the 'Registration of new account' form on the LB World platform. The page has a header with the LB World logo and a UK flag. The main heading is 'Registration of new account'. Below this, there is a progress indicator with three steps: '1 User details' (active), '2 E-mail verification', and '3 User address'. The 'User details' section is titled 'Insert your personal information' and contains three input fields: 'Name' (placeholder 'Your name'), 'Surname' (placeholder 'Your surname'), and 'E-mail' (placeholder 'Enter your e-mail').

3. To fully activate and verify your account go to the top of the page and click [here](#) to fill in all the data necessary. *Please ensure that all the information entered is consistent with your ID documents.*

4. Upload a picture of your 2 identification documents. Users must verify with an ID card and another document, such as a driver's license or passport.

5. Go to your dashboard on the left side, click on Limits and write the origin of the funds invested (AML).

6. After completion, please send your tokens to LB world address:

0xac3a9e9a762f365bfc606ace83a288b22b42bd9b

Please check the address when copying, so the transaction goes smoothly.

7. After the token transfer, send us the required information to the email address info@lbworld.eu :

- the address from which the EFK tokens were sent,
- the number of EFK tokens sent,
- the hash of the transaction,

We can identify the transaction and add the tokens to your wallet.

Tokens will be credited to your wallet within 3 business days and automatically transferred into EFK Stake RFI product until 1.8. 2023.
